

ONSHORE WIND WORK PROGRAM

Wind Project Name: \_\_\_\_\_

Location: \_\_\_\_\_

RE Developer: \_\_\_\_\_

WORK COMMITMENT	TIMELINE																				FINANCIAL COMMITMENT (PHP)				
	Year 1				Year 2				Year 3				Year 4				Year 5				Year 1	Year 2	Year 3	Year 4	Year 5
	1	2	3	4	1	2	3	4	1	2	3	4	1	2	3	4	1	2	3	4					
<b>PRE-DEVELOPMENT STAGE</b>																									
<b>A. FEASIBILITY STUDY</b>																									
1 Market Study (Identify potential market/off-taker and rates)																									
2 Technical Study																									
a. Installation of meteorological mast/ LIDAR/SODAR																									
b. Wind data gathering, processing, analysis and interpretation																									
c. Preliminary wind farm modelling/conceptual design and energy yield estimate																									
d. System/Distribution Impact Study (SIS or DIS) and application for Grid Interconnection*																									
e. Delineation/Identification of production area																									
f. Detailed wind farm modelling and energy yield estimate																									
g. Geotechnical studies																									
h. Preliminary engineering design																									
i. Logistics Study																									
3 Management Study																									
a. Plan of Development that outline the Implementation strategy of development and construction of the onshore wind farm and its attendant transmission and interconnection facilities.																									
b. Selection of engineering, procurement and construction (EPC) contractor, owner's engineer, operation and maintenance contractor (O&M)																									
4 Social and Environmental Studies and permits																									
a. Stakeholder engagement/public consultations and acquisition of local governments'																									
b. Acquisition of local governments' resolution of support (if within the municipal water)																									
c. Application and acquisition of tenurial instruments, permits, clearances, agreements, licenses, authorizations, registration and approvals from relevant government agencies and authorities (e.g. DENR, CAAP, BOI, BIR, ERC, NGCP, Private Individuals, as applicable etc.)																									
5 Financial Study																									
a. Financial modelling																									
b. Financial Closing																									
<b>B. DECLARATION OF COMMERCIALITY</b>																									
<b>C. OTHERS</b>
