

HYDROPOWER PRE-DETERMINED AREAS

AREA NO. 13 - VERA FALLS

PROFILE

Project Name : Vera Falls
Potential Capacity : 0.3MW
Type : Run of river
Water Source : Vera Falls
Location
Region : Bicol Region (V)
Province : Albay
Municipality : Malinao
Coordinates
Weir/Dam : 13° 22' 19.8" N, 123° 37' 16.2" E
Powerhouse : 13° 24' 08.1" N, 123° 37' 06.8" E
Catchment Area : 1.58km²
Effective Head : 201.9m
Discharge : 0.2m³/s

LOCATION MAP

HYDROPOWER PRE-DETERMINED AREAS

AREA NO. 13 - VERA FALLS

BACKGROUND

- The Hydropower Service Contract (HSC) which previously covered the development of the project was awarded on 02 February 2010 and was eventually terminated on 12 December 2014.
- The HSC was terminated due to the RE Developer's failure to comply with the approved work program and obligations under the HSC. While the RE Developer was able to declare the commerciality of the project, it failed to comply with the requirements for the conversion of the HSC from the Pre-Development to Development Stage. Further, the HSC expired on its own term.
- The Feasibility Study and Detailed Engineering Design were undertaken by Vergel³ Consult in 2006.
